SETS

# Get-Growing

[www.get-growing.org.uk](http://www.get-growing.org.uk)

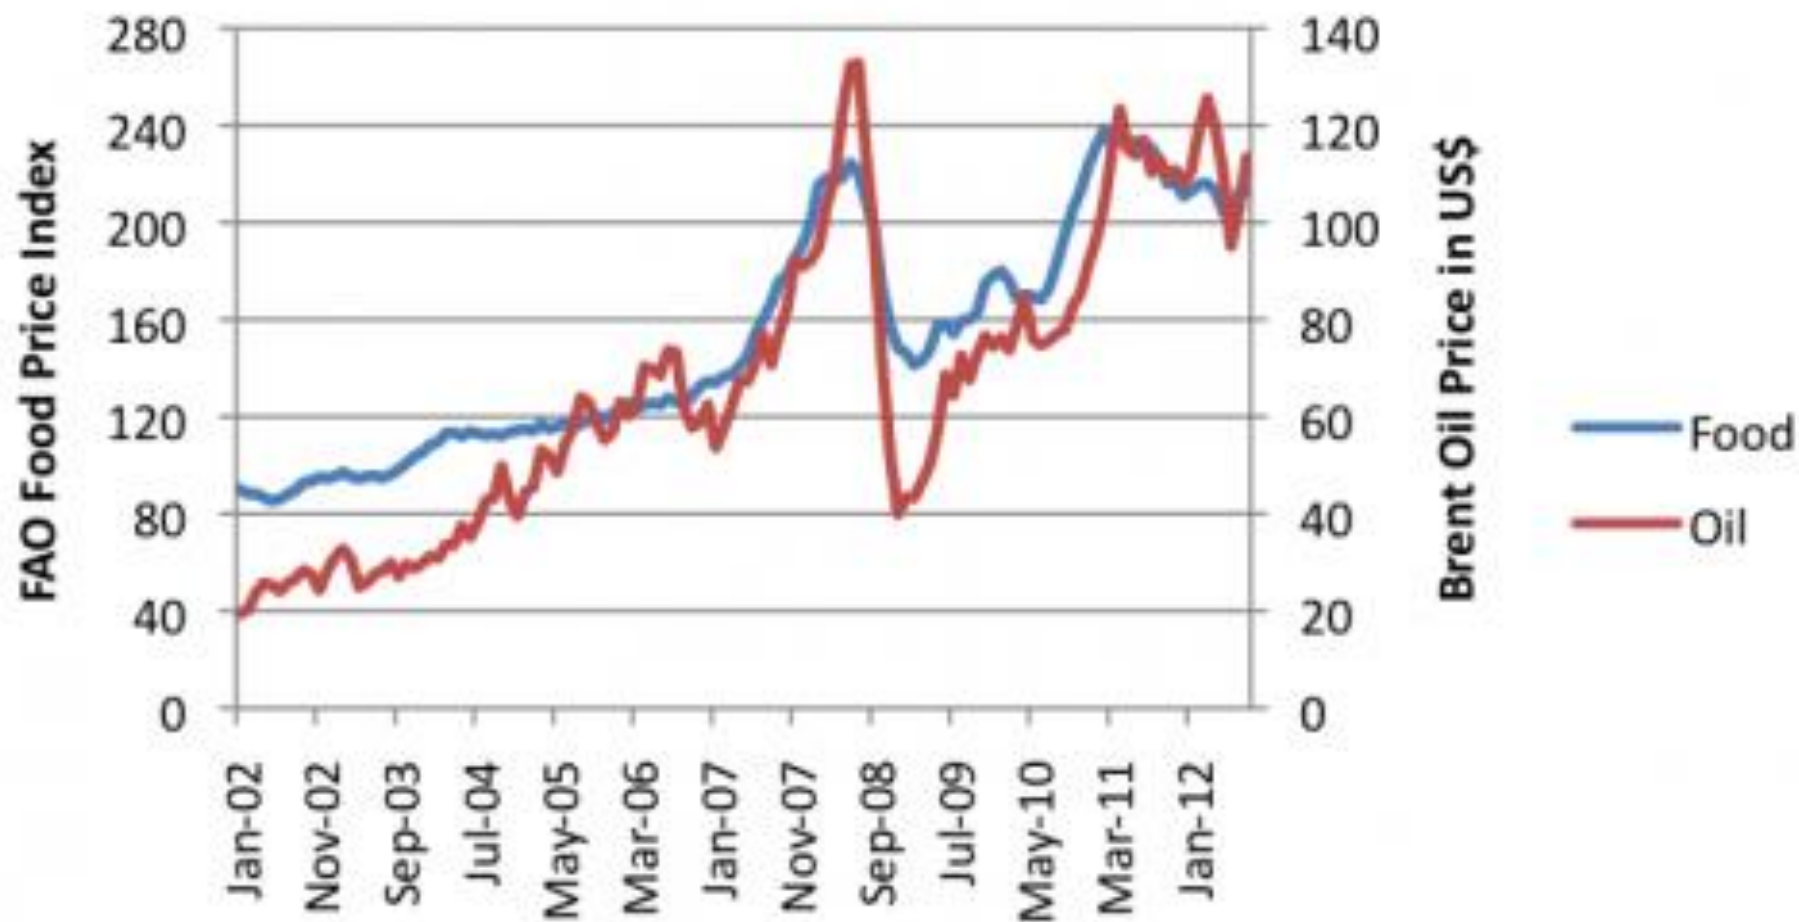

A large orange agricultural sprayer is shown in operation, moving through a lush green field. The machine has a prominent white tank with the brand name 'jacto' visible. It is equipped with long, horizontal spray booms that extend across the width of the field. The background shows a clear blue sky with some light clouds. The overall scene depicts industrial-scale farming.

# Food Myth:

Industrial Agriculture  
is the only way to feed the world.

## Comparison of Food and Oil Prices

**ONE WAY**

A black rectangular sign with rounded corners and a white border. A white horizontal bar across the center contains the text 'ONE WAY' in bold black capital letters. To the right of the text is a large white arrow pointing to the right. The sign is mounted on a green post with two silver screws.

**ANOTHER WAY**

A black rectangular sign with rounded corners and a white border. A white horizontal bar across the center contains the text 'ANOTHER WAY' in bold black capital letters. To the left of the text is a large white arrow pointing to the left. The sign is mounted on a green post with two silver screws.

## Get Growing plan takes root

THE Get-Growing Project planted a symbolic Black Mulberry Tree in the main garden and teaching space at the project's base at Pen Dinas in Newtown, based on the Coleg Powys' Newtown campus. The project is aimed at developing a community market garden, with wildlife and play areas. Planting the tree at the project's open day on Wednesday, November 14, are, from left, Lee Davies (estate manager), Edward Gwillim (director of finance and corporate service at Coleg Powys), Adam Kennerley (Cwm Harry chief executive) and County Councillor Graham Brown.

## Grafting

### When to Graft

Most grafting is done during winter and early spring while plants are dormant. Containerized plants may be moved indoors in late fall. These plants are placed in a cold frame or greenhouse.
