Permaculture Design Certificate Course

This certificate certifies the barer has completed
a full Permaculture Design Certificate course, an internationally recognised qualification, based on the ethics
principles and design tools of permaculture.
This involves a minimum of 72 hours of study, following a set curriculum based on
the Permaculture Designers Manual by Bill Mollison.

Those completing this course are registered as permaculture graduates with the Permaculture
Association of Britain, the national educational charity supporting permaculture in the UK.

Lead tutor Steven Jones BA (hons) PGCE, Dip Perm Des
is also director of Sector39 limited and
is a fully qualified teacher of business studies and economics as
well as permaculture design.

Sector39, Wales UK and have been practising permaculture since 1992 and have been
delivering permaculture courses since 2005. S39 ltd registered formally as company no 09001792 in 2014

Permaculture is a design system for sustainability and participants work on a
real-life example and are required to present their design ideas
to a group of their peers as part of the conclusion of the course.
A PDC is designed to turn ideas into action, to give insight and experience
whilst joining people into mutually supportive networks.
